EDIT: VS Code is winning since I can't find how to toggle Word Wrap in Visual Studio Preview.. The new apps offer full retina display support with thousands of retina-optimized graphics, full screen view for native immersive experiences, and even little Mac affordances like scroll bounce.. You can download the software directly from Microsoft and register it with Microsoft in your name and to your e-mail address so this is fully genuine and legit.. The download is directly from the Microsoft website and the software is genuine with all the latest updates and patches and has never been used, activated or registered.
